CUSN Adds 2 New Credit Unions in Iowa—One New Service Center in Nebraska.

LAKESWOOD, CO (April 1, 2008)—Credit Union Service Network (CUSN) (www.cusn.com) adds two new credit unions and 3 new locations.

Affinity Credit Union, headquartered in Des Moines, Iowa, opened their two locations in Des Moines as both an issuer and an acquirer in shared branching. Affinity CU serves the employees of Firestone, UPS, Tones, and anyone living in Polk and surrounding counties. For credit unions considering the idea of joining CUSN, Affinity CU shares some words of advice. "It is a wonderful service that you can offer to your members. This is just another example of the credit union philosophy of "people helping people". We are glad we joined the program and would recommend any credit union joining. It is a great feeling to offer your members over 3,200 locations that they can now access their account, said Gredell.

Des Moines Metro Credit Union, headquartered in Des Moines, Iowa, joined CU Service Network as both an issuer and an acquirer in shared branching by opening their one location in Des Moines. Des Moines Metro CU serves the Iowa Health System, along with the city of Des Moines. Des Moines Metro CU decided to join the network based on the opportunity to offer their location to guest members and be able to have their members use other locations. "There are many smaller credit unions in the area that don't have locations that are easily accessible. So, we can help these credit unions and provide an alternative for their members. It's a win-win situation for everyone," said Traci Stiles, Business Development Manager.

Neighborhood Community Federal Credit Union opened their new location as a service center in Omaha, Nebraska. The credit union opened the new branch in March and immediately added shared branching providing guest members with even more choices of where they can conduct their business.

For more information, please visit the CUSN Web site at www.cusn.com, or www.cuservicenetwork.com to view detailed information on shared branching, including locations.

Since 1992, Credit Union Service Network (CUSN) has successfully implemented shared branching for over 84 credit unions in Colorado, Idaho, Iowa, Nebraska, New Mexico, and Wyoming. CUSN was established to help participating credit unions reach more members in areas outside of their office radius through shared branching. Through shared branching, credit union members have access to more than 3,200 service centers nationwide, including some foreign locations. Members can conduct the services they most frequently use including deposits, withdrawals, funds transfers, loan payments, and balance inquiries at shared branching service centers.
