**Credit Union Service Network Reaches Milestone:
Tops 200 Service Center Locations**

LAKESWOOD, CO (March 3, 2008)—Credit Union Service Network (CUSN) announced today that it has exceeded 200 Service Center locations in its network as of February 2008.

"The numbers don't lie. Credit Unions are clearly turning to CUSN as their trusted partner for shared branching and other products," said Doug Burke, President/CEO, CUSN. "Through our strong commitment to our credit unions, CUSN delivers innovation and makes the experience of deploying shared branching easier, laying the path to an international credit union movement."

CUSN is focused on the growth of shared branching as well as ancillary products, through partnerships, development and innovation in key areas such as CURE (Disaster Recovery program), XPress Accounts™ (membership online application), CO-OP Financial Service's My Deposit (at home deposits) and Fast Branch (self-service kiosk). By adding these other products, it adds more value to CUSN. CUSN provides credit unions greater expertise and guidance on planning and building their shared branching, disaster recovery program, and online membership application programs into their credit union.

Please visit the CUSN Web site at www.cusn.com to view more information of CUSN. As CUSN continues to increase the number of participating credit unions and Service Center locations in Colorado, Idaho, Iowa, Nebraska, New Mexico, and Wyoming, more credit union members are able to experience the convenience of broader access to financial services.

About CUSN

Since 1992, CU Service Network has successfully implemented shared branching for over 82 credit unions in Colorado, Idaho, Iowa, Nebraska, New Mexico, and Wyoming. CUSN was established to help participating credit unions reach more members in areas outside of their office radius. Credit unions own the network and have a volunteer board to govern the direction of the organization. Contact Meghan Green, Marketing Consultant, at (720) 945-7244 for more information.
