**San Juan Mountains Credit Union—100th Credit Union to Join Shared Branching
through CU Service Network**

LAKESWOOD, CO (April 29, 2010)—CU Service Network is pleased to announce the addition of San Juan Mountains Credit Union, headquartered in Montrose, Colorado. San Juan Mountains CU is the 100th credit union to join shared branching through CU Service Network. San Juan Mountains CU joined CU Service Network as both an issuer and acquirer in shared branching, allowing their members to use shared branching locations, while also allowing guest members to conduct transactions in their branch. San Juan Mountains CU serves primarily Montrose County Schools staff.

San Juan Mountains CU decided to join the network based on the need for convenience. "The only shared branch in our area closed earlier this year and we saw a need to have a shared branch in our area," said Teri Reed, President/CEO, San Juan Mountains CU.

Shared branching essentially "opens the doors" other credit unions to all members of credit unions who are part of the shared branching network. Through shared branching, members can conduct the services they most frequently use, including deposits, withdrawals, funds transfers, loan payments, and balance inquiries. New credit unions and locations are added monthly, which translates into even more convenience for members.

For more information, please visit the CUSN Web site at www.cusn.com, or www.cuservicenetwork.com to view detailed information on shared branching, including locations.

CU Service Network, LLC was founded in 1992, to help participating credit unions reach more members in areas outside of their office radius, offering products and services that connect members to their credit unions. Credit Unions own the network, and it has a volunteer board to govern the direction of the organization. Media representatives, contact our Marketing Consultant, Meghan Stewart, at (720) 945-7244 or mstewart@cusn.com for additional information.
